

Range Survey in Teton County:
Ecology of Aspen
Alan A. Beetle
Division of Plant Sciences
University of Wyoming
Project Number 130

The reader is referred to pages 6 through 8 in Wyoming Agricultural Experiment Station Research Journal 26, December, 1968 entitled "Range Survey in Teton County, Wyoming. Part IV Trends in Vegetation." This summarizes the work done over the past several years on aspen. Measurements of game utilization on this key species are continuing. Data indicate a continuing distinction of this plant community.

Assisted by Neil Hilston.

Supported by Wyoming Agricultural Experiment Station and a McIntyre-Stennis Research Grant.
